

CS 2005

From specialty fruits, vegetables, citrus and tree nuts, our copper sulphate pentahydrate is designed to help combat disease! With less than an 1/8 lb of copper per acre, **CS 2005** is more environmentally friendly than our competitors!

*Evaluation of the Biological Effectiveness of Magna-Bon **CS 2005** for the Control of Anthracnose (*Colletotrichum gloesporioides*) in Avocado Evaluated Pathogen*

CONCLUSIONS

CS 2005 at dosages of 300, 400 and 500 mL / 100 L of water, successfully controlled anthracnose after 3 consecutive applications at 7 day intervals, achieving levels of efficacy of 94% to 99% and maintaining good control during the last assessment conducted.

Note: US label rate is equal to 1 to 2 Quarts per 100 Gallons of water per acre.

Less Copper, More Power!
